Platform Accessibility Enhancement

Status: Open

Project Description

This project involves enhancing platform accessibility to ensure compliance with basic accessibility standards and improve usability for users with diverse needs. The objective is to make the platform more inclusive and easier to use for everyone.

Tasks include improving keyboard navigation, ensuring proper color contrast, adding descriptive labels, and enhancing screen reader compatibility.

Accessibility improvements should be applied consistently across all major user flows.

Testing should be conducted to validate improvements and identify remaining barriers. Performance and visual design must not be negatively impacted by accessibility enhancements.

Documentation should explain accessibility guidelines followed and provide recommendations for maintaining accessibility in future updates. The final outcome should be a more inclusive and user-friendly platform.
